Important Deadlines

Submitting Abstracts	May 31, 2018
Early registration	May 17, 2018
Late Registration	September 6, 2018

Word of Welcome

Dear colleagues,

On behalf of ESGENA, the Austrian Society of Endoscopy Nurses and Associates (IVEPA) it is our great pleasure to invite you to the 22nd ESGENA Conference which will be held during the 26th United European Gastroenterology Week, October 20-22, 2018 in Vienna, Austria.

Why should you attend the ESGENA Conference? The ESGENA conference is a unique venue for meeting colleagues from different countries and expanding your professional network. The relaxed atmosphere supports collegial exchange and helps to overcome language barriers. The ESGENA conference includes state-of-the-art lectures, free papers & posters, lunch sessions, workshops with hands-on training and live transmissions. Last breaking news about new trends and developments as well as presentations about interesting projects and studies in Gastroenterology and Endoscopy ensure a truly global context. The exchange with nurses from all over the world combined with the opportunity to attend the medical programme of the UEG Week ensures that the ESGENA conference will be an exceptional educational event.

Following past meetings in 2008, 2014 and 2016, this is the fourth time that the medical and nursing community of Gastroenterology and Endoscopy will meet in Vienna. The city on the Danube is known not only for the Prater, the Hofburg and delicious pastries, but also for great experiences with and without adrenalin factor.

Enjoy the extraordinary Austrian hospitality, combined with the multicultural atmosphere of an international meeting.

We hope to welcome you to the 22nd ESGENA Conference and 26th UEG Week in October 2018 in Vienna
Marjon de Pater, President of ESGENA
Dagmar Zrzavy, President of IVEPA

Registration fees for the ESGENA conference

Registration	Early	Late	Onsite
	By May 17, 2018	By September 6, 2018	After September 6, 2018 and onsite in Vienna
Fee	€ 185,-	€ 200,-	€ 250,-

- It is essential that nurses bring a copy of their professional standing or similar identification to the conference registration desk in order to prove their status (confirmation by employer, proof of education or registration as a nurse).
- If you would like to register up to 10 delegates, please register each person individually.

Registration fee includes:

- Admission to all ESGENA scientific sessions and workshops (Saturday - Monday)
- Admission to the UEG Week scientific sessions (Saturday - Monday)
- Admission to the UEG Week poster and technical exhibition (Monday)
- Admission to the ESGE Learning Area (Saturday - Monday)
- Admission to the Surgical Learning Area (Saturday – Monday)
- Admission to the Ultrasound Learning Area (Saturday - Monday)
- Unlimited use of Vienna public transportation system (ticket is valid from Saturday through Monday)
- Congress materials (final programme, ESGENA abstract book, etc.) *
- * Lunch and coffee are not included in the registration fee. UEG offers a certain amount of catering during the breaks on a first-come-first-served basis.
- **Nurses who want to attend the UEG Week on Tuesday and Wednesday are asked to contact Ulrike Beilenhoff (UK-Beilenhoff@t-online.de)**

ESGENA Call for Abstracts 2018

ESGENA invites colleagues from Europe and from all over the world to present their experience, studies and projects at the 22nd ESGENA Conference in October 2018 in Vienna, Austria. Participants wishing to submit abstracts can do so **only in electronic format** by sending a **MS Word document** with their abstract by e-mail to:

Ulrike Beilenhoff,
ESGENA scientific secretariat
Email: UK-Beilenhoff@t-online.de

Deadline for submitting abstracts: 15th June 2018

The authors will receive an official confirmation within 3-5 days after submitting their abstract. If authors do not get an official confirmation within 5 days, please send the abstract again to Ulrike Beilenhoff and a copy to the ESGENA secretariat: info@esgena.org.

The presenting author of an accepted free paper or poster will receive a free registration to the ESGENA Conference. A limited number of free registrations are available

General Information on Abstract Submission

Participants are invited to submit original scientific abstracts for oral or poster presentation.

Authors have to conform to the following guidelines for abstract submission. **Those not conforming to the guidelines will not be considered for reviewing.**

- Abstracts must be submitted in English and must be presented in English.
- Abstracts will be reviewed by a panel of experts and may be selected for oral or poster presentations, or may be rejected.
- Notification of acceptance (for oral or poster presentation) or rejection by the Scientific Programme Committee will be e-mailed to the presenting author by June 30, 2018.
- Detailed information, guidelines and recommendations for oral or poster presentation, as well as day, time and room will be sent in due time to duly registered presenting authors. The time allotted for each oral presentation will be 10 minutes, followed by 5 minutes of question time. During the poster round, authors of posters should also be prepared to answer questions in English.
- Accepted abstracts will be published in the ESGENA Abstract Book and on the ESGENA website.

The abstract should be typed as follows:

- Use font that is easy to read such as Arial, Times Roman, Helvetica or Courier fonts.
- The abstract must not be more than 500 words long or must not fill more than one A4 page, using type in 12-point font.
- A brief title should clearly state the nature of the investigation
- Abbreviations should, if possible, be avoided in the title, but may be used in the text if they are defined on the first usage
- The authors' names (full first name, surname) and the institution (hospital, university, organization, city and country, e-mail and fax number) where the research was carried out, with the name of the presenting author underlined
- Use single line spacing
- Include tables if necessary
- The abstract should be as informative as possible
- **The abstract should have a logical, scientific structure (introduction, mains & objectives, method, results, conclusion, summary, references, learning outcomes for audience)**
- Statements such as „results will be discussed “ or „data /information will be presented “ cannot be accepted
- Please ensure that your abstracts do not contain any spelling, grammar or scientific errors, as it will be reproduced exactly as submitted
- The abstract should have a **nursing relevant content** and should **add to existing knowledge**.
- The abstract should have a minimum of **2 relevant References**, but not more than 10 References.
- The abstract should state **2 things the delegates could learn** from your presentation

How to prepare a well-written abstract

You can use the template to complete all sections

Scientific Abstract Template (limit: 500 words or one A4 page) - Please complete ALL Sections	Explanatory Notes When completed, and before submission – delete this column
Title	10 – 12 words that capture the relevance and essence of the research
Introduction / Background	<ul style="list-style-type: none"> ➤ What has been investigated ➤ Why is the research important. ➤ Context of the study - has something similar already been done and how the presented work differs
Aims / Objectives	<ul style="list-style-type: none"> ➤ The purpose of the RESEARCH / project– <i>not of the abstract!</i> ➤ Providing a brief synopsis ➤ Hypothesis, question or concept underpinning the research.
(Research) Methods * Please indicate which methodology you have used and delete non-applicable methods: <ul style="list-style-type: none"> ➤ Randomized Controlled Trial (Intervention) ➤ Meta-Analysis ➤ Systematic Review ➤ Cohort Study (Prediction) ➤ Qualitative Research Studies (Exploration) ➤ Service / Program Evaluation ➤ Audit ➤ Case Report ➤ Other: <i>state which</i> 	<ul style="list-style-type: none"> ➤ Should describe HOW the AIMS of the research were achieved. ➤ What the research/project involved - for example: <ul style="list-style-type: none"> * Short description of the study design * Underpinning theoretical or conceptual frameworks, * Sampling technique(s) used, e.g. qualitative or quantitative, * Retrospective or prospective * Method of data collection: e.g. review, surveys, focus groups, patient cohorts etc. * Sample size, criteria for selection and exclusion, * Randomised or non-randomised. * Type / method(s) of data analysis (tests) * Statistical or interpretative analysis software programs used (GENERIC name of the software) * If applicable: state if <i>Ethics Approval</i> was obtained.
Findings / Results	What the research discovered <ul style="list-style-type: none"> ➤ Synopsis of the findings of the study, using key data to demonstrate the outcomes. ➤ Avoid simply citing data, particularly in quantitative studies. ➤ State statistical significance (quantitative studies) ➤ Synthesis of the data and how it answers your research question. NEVER submit an abstract without results,
Summary and Discussion	<ul style="list-style-type: none"> ➤ Provide a short explanation of HOW the findings relate to the <i>AIMS</i>, ➤ present EVIDENCE of the findings from your <i>METHODS</i> (to support the implications of your study = conclusions) ➤ Critically define any weaknesses / strengths identified in your data
Conclusion	What the research implies <ul style="list-style-type: none"> ➤ IMPLICATIONS of the findings and ➤ how they ADD to the existing knowledge
Learning Outcomes + Relevance to Nursing Practice	Relevance to Nursing and how the findings can be <u>used/applied</u> in Clinical Practice

ESGENA Programme

ESGENA Opening Session: Quality makes the difference

Saturday, October 20, 2018 11:30-13:00

- Welcome and Opening
- The value of nursing in Endoscopy and Gastroenterology
- What makes a good endoscopy nurse – technical aspects and team work
- Delegation of tasks to unregistered staff - what when how why

Special Bronchoscopy Sessions

Saturday, October 20, 2018 14:00-15:30 and 16:00-17:30

Lectures

- Electromagnetic Navigation, periphery and central EBUS- Tools of diagnostic and therapeutic procedures-
- Endoscopic Lung Volume Reduction(ELVR)
- NIV- Not Invasive Ventilation – what can Gastroenterology learn from Bronchoscopy
- Continuous tracking, control and safety of pulmonary patients through nursing documentation
- Management of bronchial bleeding

Hands-on Training

The practical part of the workshop will offer the opportunity to improve procedure skills in bronchoscopy with the help of dedicated hands-on training on bio simulators under the supervision of highly experienced tutors.

Participants will be able to perform the following techniques in diagnostic and therapeutic procedures in bronchoscopy:

- Bronchoalveolar lavage, cytology brushing and biopsy taking
- Classical TBNA for cytology and histology sampling
- Endoscopic Lung Volume Reduction(ELVR)
- Foreign body removal
- Management of bronchial bleeding

Number of participants: limited to 40 persons

Workshop: It's in your hands – The nurse in ERCP

Saturday, October 20, 2018 14:00-15:30 hours

Aims & Content

The role of the nurse in successful ERCP is essential and handling of the devices is one part of it. Practise ERCP procedures step by step at different hands-on stations. Exchange experience and ask questions to renowned experts to improve your skills set and confidence.

The participants will be able to train the following techniques under the supervision of experienced tutors:

- Balloon dilation
 - Lithotripsy: standard and emergency cases
 - Cannulation, device exchange with long and short guidewire techniques, stent placement
 - Display of ERCP devices with demonstration
-

ESGENA Programme

Workshop: Resection Techniques

Saturday, October 20, 2018 14:00-15:30 hours

Programme to be included

Workshop: The influence of endoscopes reprocessing on successful infection prevention - a risk assessment of the individual processing steps

Saturday, October 20, 2018 14:00-15:30 hours

Aims & Content

The aim of the workshop is to help you optimise and risk assess your endoscope reprocessing workflow. The workshop will focus on infection prevention, increasing efficiency, improving patient safety and reducing risk at the 4 key stages of an endoscopes journey:

- Procedure
 - Manual pre-cleaning
 - Reprocessing in the AER
 - Drying and Storage
-

Workshop 5: More than nice to know – Damage prevention & Correct endoscope handling

Saturday, October 20, 2018 16:00-17:30

Aims & Content

The spectrum of gastrointestinal endoscopic treatments has significantly expanded during recent years, also the number of endoscopic examination has increased. This is in conflict with economic factors for medical equipment, which will be used for frequently during longer periods. Consequently this leads situations with increased mechanical and chemical stress also to endoscopes.

Within this triangle of forces, the need for a variety of checks and balances becomes obvious.

This workshop is intended to:

- give technical inside to endoscope material considerations and material stress aspects
 - visualise mechanical and hygiene risk factors
 - inform about practical aspects regarding damage prevention
 - allow workshop participants to touch and feel mechanical and stress aspects an endoscopes
 - get tips about suitable handling of endoscopes
-

ESGENA Programme

Workshop : Electrosurgery – Prevention of complication

Saturday, October 20, 2018 16:00-17:30

Aims & Content

Electrosurgery offers the possibility of pressure-free and precise cutting and at the same time control of bleeding during endoscopic resection techniques. With argon plasma coagulation tissue can be devitalized. The water-jet surgery provides additional options for resection. The aim of the workshop is:

- To update on principles of electrosurgery and relevant safety measures
- To demonstrate different settings for different applications like Polypectomy, EMR, ESD, Papilloectomy, etc:

in order to achieve max safety and to prevent adverse events and complications

Hands-on training on bio simulators

Saturday, October 20, 2018 14:00-15:30 and 16.00-17.30 at the ESGE Learning Area

Aims & Content

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

Further workshops are planned on

- **New concepts for endoscope reprocessing**
- **Health and safety in endoscope reprocessing**

The detailed programm of these workshops will be available in June 2018

ESGENA Programme

ESGENA Free Paper Sessions

Sunday, October 21, 2018 **09:00-10:30 and 11:00-12:30 hours**

- Presentation of 12 free papers
 - Deadline for submission of abstracts : May 31, 2018
 - See → Call for Abstracts
-

ESGENA Poster Round

Sunday, October 21, 2018 **10:30-11:00 and 13:30-15.00 hours**

- Presentation of free posters
 - Deadline for submission of abstracts : May 31, 2018
 - See → Call for Abstracts
-

ESGENA Session: Education

Sunday, October 21, 2018 **09:00-10:30 hours**

- ESGENA Statement: Quality indicators for patient care in Endoscopy
 - Self-directed learning – how to implement in daily routine?
 - Mentorship & Motivation the workforce
 - ESGENA Curriculum on reprocessing of flexible endoscopes
-

ESGENA Session: Management – safety first

Sunday, October 21, 2018 **11:00-12:30**

- ESGENA Statement: Sign-in , Team Time out and Sign out – safety netting in Endoscopy
 - Safety Systems in Endoscopy: How to prevent steeling of endoscopes
 - Design of Endoscopy Units – trends and new developments to improve patient and staff safety as well as organisation and logistics?
 - 24 hours service in Endoscopy – organisation, quality indicators and limitations
-

Hands-on training on bio simulators

Sunday, October 21, 2018 **11:00-12:30 hours**

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors. Participants will have the opportunity to perform endoscopic techniques on the following topics:

- Colonoscopy
- ERCP

As participation will be limited, registration will be treated on a first-come-first-served basis. Ticket will be available onsite only – at the entrance of the ESGE Learning Area.

ESGENA Programme

ESGENA Lunch Sessions

Sunday, October 21, 2018 12:30-15:00

ESGENA lunch Sessions combine lectures with hands-on training. New trends and developments will be presented on

- Hygiene and infection control
- Endoscopic techniques

A hands-on area will provide various opportunities

- To exchange experience
 - To ask questions to renowned experts
 - to improve your skills set and confidence
 - to get familiar with new equipment
-

Hands-on training on bio simulators

Sunday, October 21, 2018 14:00-15:30 hours

Chairs: Eric Pflimlin, Switzerland

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors. Participants will have the opportunity to perform endoscopic techniques on the following topics:

- Colonoscopy
- ERCP

As participation will be limited, registration will be treated on a first-come-first-served basis. Ticket will be available onsite only – at the entrance of the ESGE Learning Area.

ESGENA Session: Hygiene

Sunday, October 21, 2018 15:00-16:30

- Centralisation of endoscope reprocessing - in the central sterilisation departments
 - Endoscopy related infections – is sterilisation an answer?
 - Biofilm formation and prevention - a challenge with flexible endoscopes
 - Track and trace – Documentation and follow-up of endoscope reprocessing, repair and maintenance
-

ESGENA Session: Inflammatory Bowel Disease (IBD)

Sunday, October 21, 2018 15:00-16:30

- IBD – Passport – a tool for information and communication in daily live and for travelling
 - Monitoring of IBD patients – what is essential?
 - Iron-deficiency, anaemia and fatigue in IBD
 - N-ECCO Continuing education – what can Endoscopy learn?
-

ESGENA Programme

ESGENA Session: Present & Future in GI Endoscopy

Sunday, October 21, 2018 17:00-18:30

- Best Free Paper and Best Poster Awards
The winner of the best free papers – oral presentation and the best poster presentations - will be announced. Presenting authors are requested to attend this session. PENTAX Medical supports the ESGENA Free Paper and Poster Award
 - Guided tour through the wonderful world of the irritable bowel
 - New aspects of microbiome therapy
 - Invitation to Barcelona 2019
-

ESGENA delegate participate in UEG Sessions

Monday and Tuesday, 22-23 Oct 2018

UEG Week Opening Session

The Opening Session is held on Monday morning and includes official speeches and the opening of the core scientific programme with a mixture of invited speakers and presentations of the best submitted abstracts. UEG awards the UEG Research Prize, the UEG Lifetime Achievement Award and the UEG Journal Best Paper Award at the Opening Session

Live Endoscopy

Live Endoscopy is planned for Tuesday, October 23, 2018
Top international experts demonstrate cutting-edge techniques alongside basic procedures transmitted directly to the auditorium. The use of multiple parallel cases and experienced chairs ensure interactive learning without unnecessary gaps.

Translational/Basic Science Pathway

These sessions include topics that will potentially affect clinical practice within the near future, thereby being attractive for both basic/translational scientists and clinicians:

- Barrier function and GI disease
- Novel technical developments in basic science
- Biomarkers and individual medicine .

Today's Science; Tomorrow's Medicine (TSTM)

Top class scientists have been invited to discuss how the current stage of knowledge is ready to be used in clinical practice, and to establish strategies to foster further progression of knowledge in this area. The Today's Science; Tomorrow's Medicine symposium is a combination of both, invited sessions featuring the world's top scientists and free paper sessions where work is presented by young and established researchers.

ESGENA delegate participate in UEG Sessions

Monday and Tuesday, 22-23 Oct 2018

Symposia

Interdisciplinary symposia cover new approaches to diagnosis and treatment, and place major emphasis on innovative, technical advances in the non-invasive management of gastrointestinal and hepatic disorders and translational/basic science, including state-of-the-art lectures. Here are some examples:

- General
 - Women in interventional endoscopy
 - Mistakes in
 - Endoscopic management of complications after upper GI surgery
 - Quality in Endoscopy
- Update on
 - eosinophilic esophagitis (EoE)
 - hereditary colorectal cancer syndromes
 - GI Bleeding : The basics from experts
- Therapy update:
 - H. Pylori Eradication
 - Barrett's oesophagus
 - Colorectal Cancer
 - Acute Pancreatitis
 - Ulcerative Colitis
 - Multimodality treatment of upper GI cancer
 - Canulation access techniques in ERCP
- Crash course:
 - Non bleeding upper GI emergencies
 - When the liver starts talking
- From guidelines to clinical practice:
 - Faecal incontinence
 - Crohn's disease
 - Viral hepatitis
 - Barrett's oesophagus
 - Cystic pancreatic lesions
- Functional disorders: is testing necessary ?
- New metrics for colonoscopy
- Endoscopic resection of polyps
- Multidisciplinary management of local advanced rectal cancer
- Screening of CRC across Europe
- Constipation
- Future therapies in IBD Post-operative recurrence of Crohn's disease
- Luminal Crohn's disease and surgery
- Biliary stones: diagnosis and therapeutic management
- Early management of acute pancreatitis
- Alcoholic liver disease

Free Paper Sessions

The most important feature of UEG Week is the science and this is recognised in the core programme with a large number of Free Paper Sessions devoted to original research, and an impressive number of Mixed Sessions where invited talks and free paper presentations alternate. Both of these sessions allow lively discussions about the best original research submitted to UEG Week and this is your opportunity to hear about GI and liver research in Europe and worldwide before it is published.

ESGENA delegate participate in UEG Sessions

Monday and Tuesday, 22-23 Oct 2018

Case-based discussion

For each of these sessions we have invited four experts who will discuss a common clinical situation based on a case presentation. There is no pre-booking required but come early as there are limited seats which will be filled on a first-come, first-served basis.

- Biliary pancreatitis
- Oesophageal motility disorders and dysphagia: How to diagnose? How to treat?
- Anal pains and bleeding: Proctology
- Diarrhoea and fever

Scientific Centre:

Poster Exhibition / Poster Champ Sessions / Posters in the Spotlight

A place where all possibilities to present an abstract are featuring the UEG Week Hotspot, the E-Poster Terminals as well as the poster exhibition.

Poster Exhibition / E-Posters

Poster Sessions feature a very spacious room layout and poster format. Printed posters are displayed and changed daily. The discussion of clinical cases during daily poster sessions offer the presenters relevant discussions of difficult clinical problems.

E-Posters allow all poster presenters to include interactive media files, such as radiology images, endoscopy videos, etc. and to show a video together with the E-Poster. E-Posters are accessible on the poster terminals from Monday until Wednesday.

Poster Champ Sessions

2-minutes presentations of the highest scoring posters will be given at the E-Poster terminals in the poster exhibition, followed by 3-minutes Q&As from the chairs. The Poster Champ of each session will be awarded during the official award ceremony each day.

Posters in the Spotlight

The Posters in the Spotlight are an excellent platform for in-depth scientific exchange with faculty and peers in a relaxed atmosphere and present an ideal opportunity to attend highly interactive and expert-led poster presentations.
